

Telfree SMS

All your SMS messaging needs from your desktop computer or laptop.

Individual or Groups SMS's, Telfree SMS can do it for you!

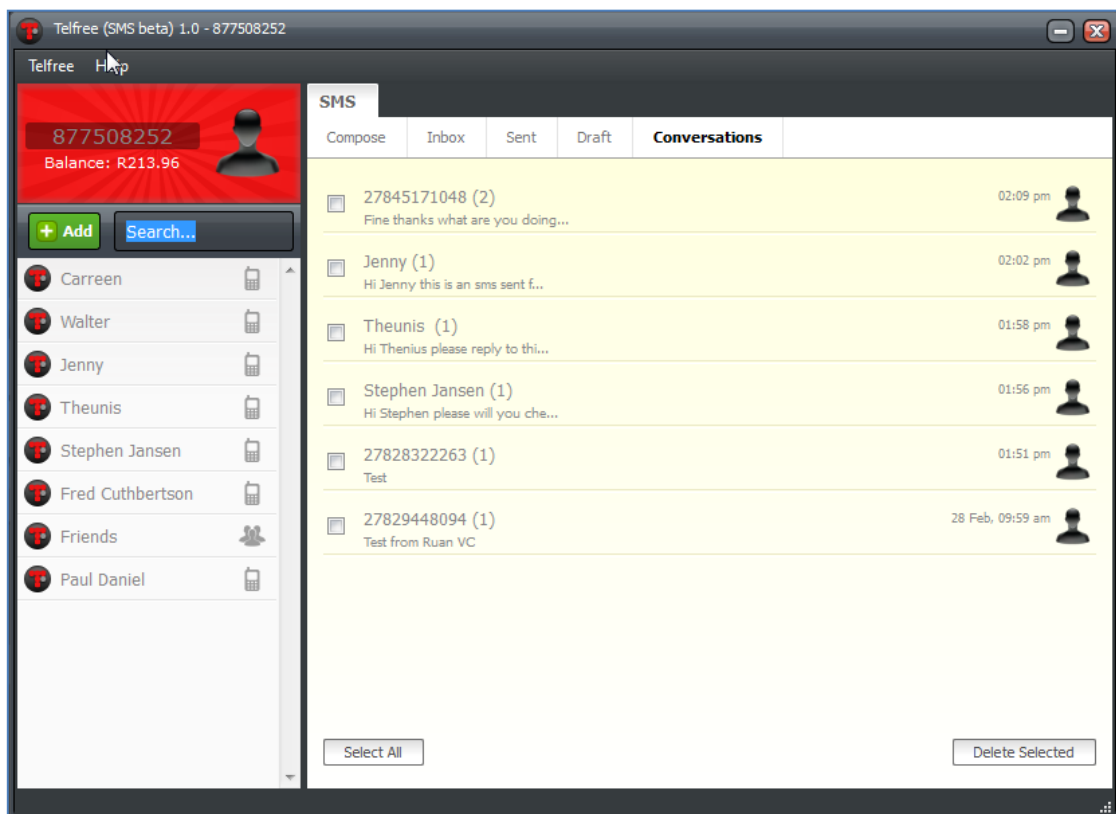

Telfree enables you to send and receive SMS messages on your computer or laptop, as long as you have an internet connection and Telfree SMS installed on your computer. You can opt to send an SMS to just one person, or to entire groups for people. Easily manage your contacts by importing contacts from Microsoft Outlook or a CSV (Excel) file.

Send SMS's locally and internationally at our highly competitive rates.

SMS's between Telfree users are free with any paid subscription.

The Telfree SMS application is available for download and installation for all computers and laptops running the Microsoft Windows operating system (XP and later releases).

Telfree SMS for your Desktop

Windows XP and later releases of Microsoft operating systems are supported.

Getting an Account

If you do not have an account, you can register a new Telfree account [click here!](#)

Once you've downloaded Telfree SMS, you can start sending and receiving SMS's. Make sure you have some credit to send SMS's

How to use Telfree SMS

Downloading & Installing

To download Telfree SMS [click here!](#)

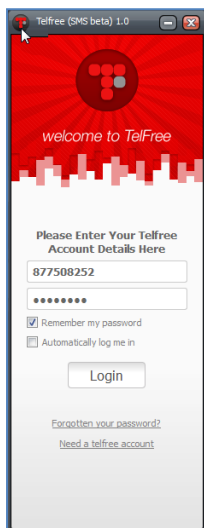

You will be asked to accept the Telfree terms & conditions. Select 'Next' to proceed to the next step of the installation process.

Creating an Account

You can use an existing Telfree account or create a new account.

- Simply download Telfree SMS and select the option to Create a new account.
- Alternatively, you can create a new account online by [clicking here!](#)

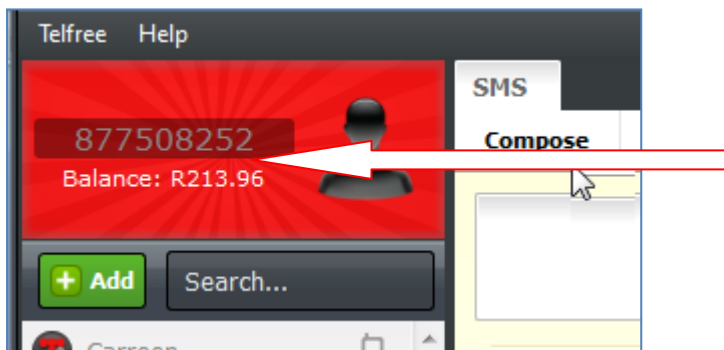

Logging in

A detailed view of the login form. The title is "Please Enter Your Telfree Account Details Here". It features a text input field containing the number "877508252", a password input field with masked characters, and two checkboxes: "Remember my password" (checked) and "Automatically log me in" (unchecked). A "Login" button is located at the bottom of the form. A red arrow points from the right towards the username input field.

Enter your Telfree number as the username (in the format 8775xxxxx) and your password to log in. Note: Your login information is case sensitive

You must have an active internet connection on your computer in order for Telfree SMS to log in. Should your internet connection lapse, Telfree SMS will automatically log you in again.

Managing your Account

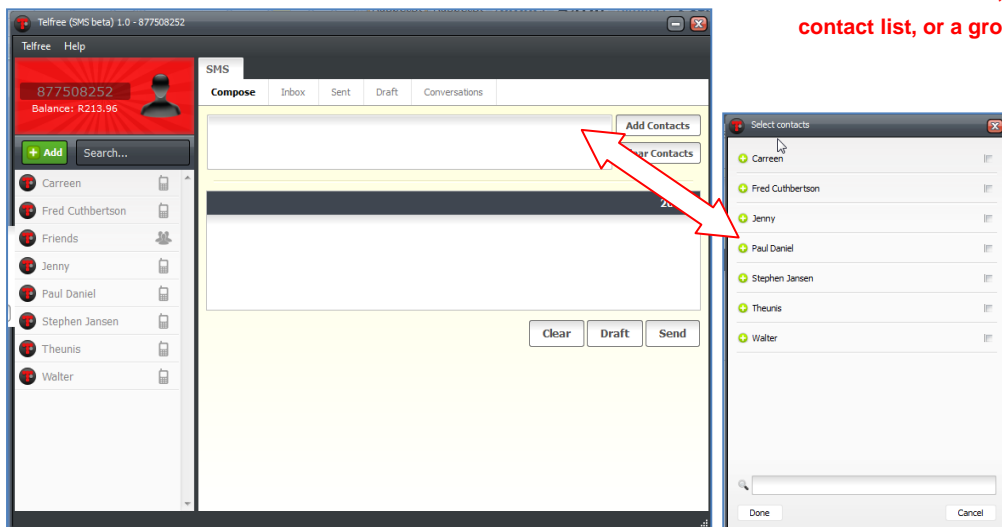

You can check your account balance at any time. Simply log into Telfree SMS and your balance is displayed next to your profile picture.

This is the amount of credit available for sending SMS's on the application to people who are NOT in the Telfree network.

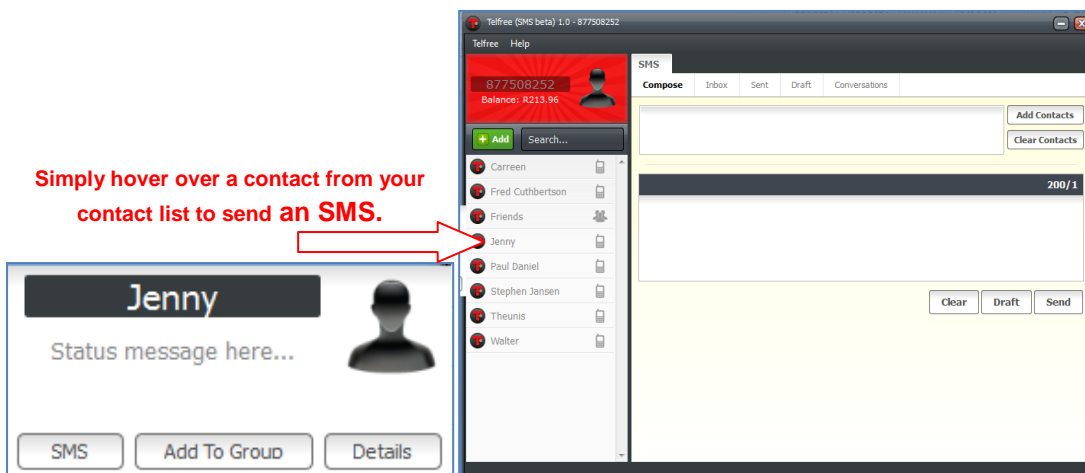

You can load credit onto your account, the same way you have been doing before. Any credit loaded onto your account will be available for sending and receiving SMS's.

Sending SMS's

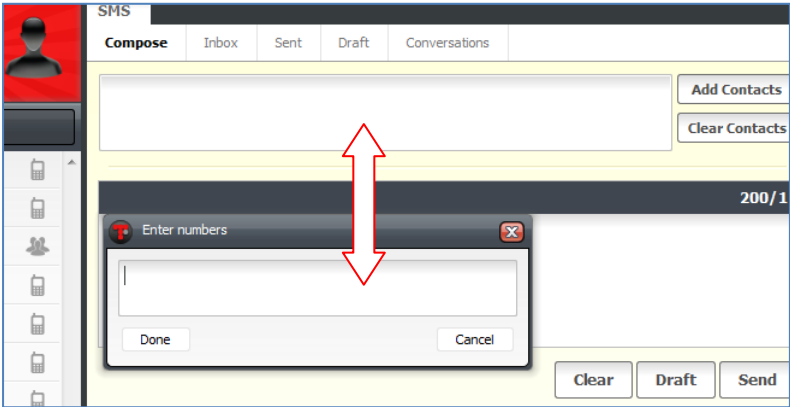

The 'SMS Tab' allows you to compose an SMS of any length (note that you are charged per SMS).

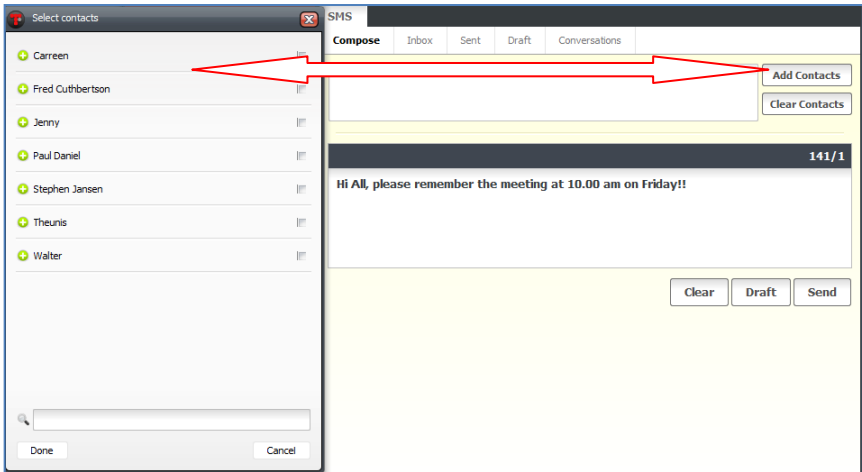

Send SMS's to a number, a contact in your contact list, or a group of people

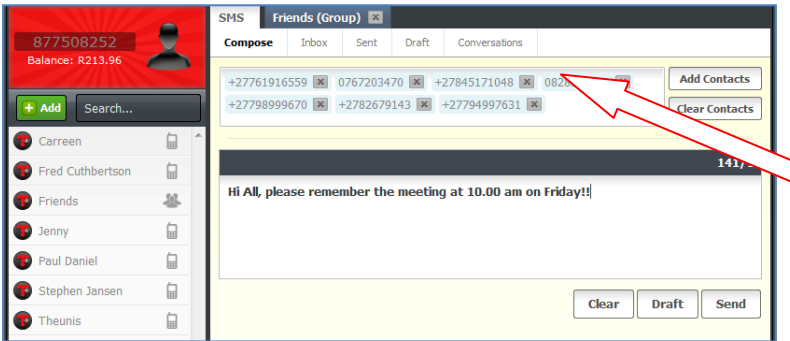

Simply hover over a contact from your contact list to send an SMS.

Enter in a number by simply clicking on the 'number field'

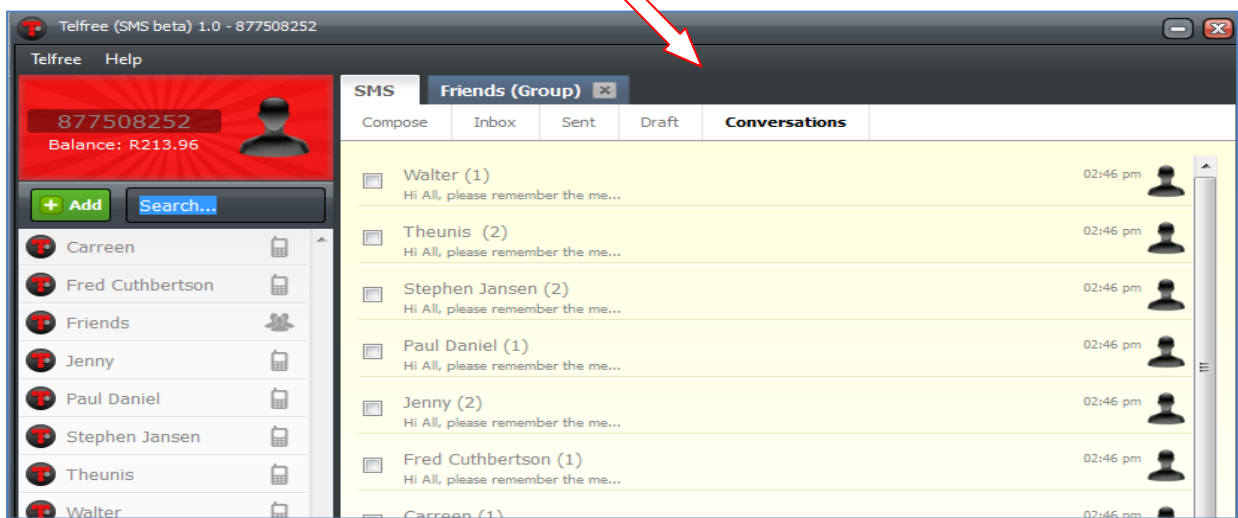

Opt to 'Add Contacts' to the SMS under 'Add Contacts'

Groups you have created may also be listed - simply select a Group

View SMS's

- **Inbox** - all your received SMS's
- **Sent folder** - all the SMS's you have sent
- **Draft folder** - all your saved SMS's you have not sent
- **Conversations** – all the messages sent and received for each contact or number in a conversation view

SMS Notifications

When you receive an SMS, an alert will pop up on the bottom right corner of your computer. You can then choose to Reply to the SMS
